

## **PRE STUD BOOK COMMUNIQUÉ.**

### **NEW PRE STUD BOOK FEES AS OF SEPTEMBER 1, 2012.**

Dear Breeder:

As part of our commitment with breeder services, and in an effort to keep everyone duly informed, it is our responsibility to inform about the new rates that are applicable as of the first of September, 2012 for all of the services provided by the PRE-ANCCE Stud Book office. Likewise, please be informed about the circumstances that have led to this price adjustment.

(\*) New price list included herein with information about prices and special offers.

In recent years, ANCCE has faced and accepted constant increases in the Consumer Price Index, administrative and overhead costs and even the 2% Value Added Tax (VAT) increase in July of 2010 without passing on these costs or incorporating them into the fees charged to breeders. All fees have remained unchanged since January of 2007.

As you may know, the government of Spain has recently approved an increase in the Reduced and General VAT rates. First of all, the 8% rate increases to 10% while the later goes from 18% to 21%. This latter affects all PRE Stud Book Services provided by ANCCE. As stipulated by Royal Decree 20/2012 of July 13, in the Official Gazette dated July 14, 2012, this rate will enter into effect as of September first.

In essence, this increase in fees is due to legislative factors that must be complied with, as well as regulatory factors to be carried out in an effort to optimize the LG PRE ANCCE Stud Book services provided. Improvements include, for example, the new Basic Aptitude Certificate, which is much more complete, to include and facilitate the participation of the actual breeder during the process, broadening the Breeding Program without any additional cost to the breeder and that seeks to improve the quality of the products offered.

Over the years, all possible efforts have been made to maintain our prices. To date, that objective has been achieved. Today, the LG PRE ANCCE Stud Book office must comply with the aforementioned tax increases to be able to maintain its service capacity, without undermining it, with regards to the assistance provided to breeders and PRE as a breed.

# ANCCE

LIBRO GENEALÓGICO *del* CABALLO  
de PURA RAZA ESPAÑOLA

The LG PRE ANCCE Stud Book office has reviewed all prices to reflect these adjustments, taking into consideration the details and specific aspects of each services, always in search of the best possible option.

Nevertheless, and being aware of the current economic perspective, the LG PRE ANCCE Stud Book office has decided to apply a moderate increase for certain services, maintain the fees for others, continue specific offers such as the current arrangement for Change of Name, Genetic Coat Color and the fees to be paid to the Veterinarian Representative for the Inscription and Identification as well as Assessment of horses.

In this light, and seeking to contribute to reducing costs for breeders at difficult moments, the PRE Stud Book is launching a new offer—in addition to already existing offers, upon requesting the renovation of documentation (service 115) from the main PRE Stud Book office. This offer is applicable to those horses that already have blood on file with the Stud Book, in which case, it is a savings in terms of paying the Veterinarian Representative fee.

The price adjustment will not have lineal repercussions for each service, as you can see on the table. **The LG PRE ANCCE Stud Book office considers it necessary to maintain the prices of those services considered essential for breeders and to promote the breeding of the Purebred Spanish Horse**, which is the main objective of our association. Thus, **the fee to be paid for the services known as IDENTIFICATION FOR INSCRIPTION (Code 103, micro-chipping) will not change**. In this case, ANCCE will absorb the loss that taxable income will suffer with the application of a 21% VAT rate, but it will not change the fee for this service, once the new tax is applied. That decrease will affect all other services accordingly, as indicated.

Further information about all of the above can be found on the PRE Stud Book web site at [www.lgancce.com](http://www.lgancce.com) or by phoning +34 954 975 480.

Being convinced that you understand this decision, please accept my best regards.

Javier Conde Cerrato

President of the ANCCE
